TURBOJET

4 - STROKE JET TENDERS

As the leading jet tender specialist, Williams have
a strong understanding of yacht owners requirements
for auxiliary craft. This knowledge and our passion
has led to the development of the revolutionary
Turbojet 4-stroke tender range.

TURBOJET FEATURES

- Industry-first turbocharged, intercooled 4-stroke engine
- Advanced axial flow jet pump with stainless steel impeller
- Excellent fuel economy for long range cruising
- Secure, comfortable central driving position
- Unique seating layout for weight distribution, balance and extra carrying capacity
- True sports boat hull shape for cornering grip and directional control
- High performance, speeds up to 42 knots
- Supreme stability at all speeds
- Monocoque construction ensuring inherent rigidity and buoyancy even without tubes
- Removable tubes for practicality

TURBOJET WEBER ENGINE

- Turbocharged and intercooled two cylinder, four stroke, parallel-twin with four valves per cylinder
- Closed loop cooling system with heat exchanger
- Nominal power: 104hp SAE J 1228 at 7200rpm
- Emissions: CARB 2008
- Engine freshwater flushing via plug in port on transom
- Electronic engine management system

WILLIAMS

performance tenders

The Turbojet 285 opens up a world of fun to yacht owners. She will fire up at the turn of the key and immediately settle into a quiet unobtrusive idle, but throw the throttle open and hold on for a truly exhilarating ride.

Powered by the same 104hp Weber engine used throughout the Turbojet range, the T285 has a level of performance which belies its size, and thanks to its sports hull the T285 will hold tight in turns even if driven hard, giving an experience akin to riding a fast motorcycle. Waterskiers will delight in her ability to pull them from a deepwater start on a monoski, and also track in a straight line.

Able to carry three adults with ease, the T285 can be used for general ferrying duties making her a great practical choice.

The unbeatable Turbojet 285.

TURBOJET

WILLIAMS

performance tenders

The T325 will rocket from standstill to 20 knots in four seconds flat and won't stop until the far side of 40 knots.

In common with the entire Turbojet range, such performance is made possible by the torquey 104hp Weber engine driving through a high performance jet pump system. The T325's spacious layout can accommodate four adults and one child in comfort, with luggage stowed in the forward locker and under the central seat, and her hull length promotes excellent low speed planing ability, giving a supremely stable platform for safe embarking/disembarking.

As with all Turbojets the fuel economy is impressive, giving extended use between refuelling for true coastal cruising capability.

A qualified choice for the discerning yacht owner.

TURBOJET

Leave the yacht at anchor and explore further afield with the Turbojet 385. Stylish and practical, the T385 is the leader of the pack. Her sports boat hull gives truly awesome open water performance and a breathtakingly smooth ride, and with seating for five adults and one child plus storage, this tender has capacity beyond her size making her the definitive yacht tender.

Power, precision and purpose
– The Turbojet 385.

Motor Boat & Yachting Magazine

“The Williams Turbojet comes closest to being all things to all people. It is perfectly possible to use it for simple ferrying duties one minute then take your teenage kid out for a hair-raising wakeboard ride the next. It is the current king of jets.”

TURBOJET

Outline Specification

LOA	3.30m
Beam	1.68m
Height from keel to steering wheel	910mm
Engine	Weber MPE 750 104HP
Maximum speed	42 knots
Dry weight	296kg
Fuel capacity	41 litres
Seating	4 adults + 1 child
Typical fitments	Yachts from 16m - 21m

385

TURBOJET

Outline Specification

LOA	3.85m
Beam	1.74m
Height from keel to steering wheel	910mm
Engine	Weber MPE 750 104HP
Maximum speed	42 knots
Dry weight	340kg
Fuel capacity	60 litres
Seating	5 adults + 1 child
Typical fitments	Yachts 20m plus

Standard equipment on all models:

Weber 104hp turbocharged engine
 Hand built removable tubes – four air chambers
 Rigid monocoque fibreglass hull and deck
 Non skid deck (teak effect on T385)
 Removable waterproof cushions
 Lifting eyes
 Tie down eyes
 Navigation lights (LED)
 Automatic bilge pump
 12v auxiliary power supply/charging socket
 Bilge blower
 Fuel gauge
 Automatic fire extinguisher
 Battery (long life, absorbed acid)
 Heavy duty foot pump complete with pressure gauge

Options:

Overall cover in white / grey flash or white / blue flash
 Coloured hull
 VHF radio
 Music system (mp3 plug in, waterproof amp and speakers)
 Custom chocks
 Road trailer
 Automatic inflator - plugs into 12v auxiliary power socket
 Lifting kit
 Tie down kit
 Anchor and rope
 Paddle
 Battery charger / optimiser

Specifications subject to change without notice, weights are given as guidance only and are subject to variance. Inflatable tubes are hand-built and are therefore subject to variances in both diameter and length.
